Forecast For Northeast England
Issued by Met Office Exeter
at 0400 on Sunday 11 Jul 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Sunny spells and locally prolonged heavy showers.

Today:
Early low cloud in places soon clearing to sunny spells, however this will in turn spark scattered slow-moving showers. These will become increasingly heavy as the day progresses, with a risk of thunder and hail in the heaviest. Light winds. Maximum temperature 23 deg C (73 deg F).

Tonight:
Showers gradually easing and becoming fewer and further between during the evening, although a few remain possible overnight. Staying mild, with generally light winds. Minimum temperature 11 deg C (52 deg F).

Monday:
Another day of sunshine and showers, with these again slow-moving and potentially thundery. These showers will be perhaps more likely in western areas. Light winds. Maximum temperature 21 deg C (70 deg F).

Outlook for Tuesday to Thursday:
Isolated showers will develop on Tuesday, but overall these should be fewer and lighter than on Monday. Conditions turning more settled from midweek with more in the way of sunshine.
